

# CS 346: Daily Standup

Team #: 214

Date: March 22nd

## Questions

Enter comments below. If a team member is absent, fill in their name, and put a line through the answer section.

Name	What have you completed since last meeting?	What are you going to complete today?	What obstacles are in your way?
Yang	Adding ability to sort notes on homepage by title and date created/modified, along with including groups and searching for notes by title	Will work on searching by body text and try to help with the html string conversion	N/A
Hammad		Will help with db stuff or any issues that still exist in sprint 4	N/A
John	Revamped Homepage UI that makes UX a lot better, things like icons, colors for notes, different font sizes etc.	Will work on finalizing UI of homepage to work with our backend features	N/A
Tim	Created a .db file that successfully saves window/application data, there are some small issues but we have an idea of a fix	Will transport this to a web service and look at the web service for our app	N/A

## Outstanding

Do we need help with anything? Not currently

## Decisions

Is there anything else we should capture from this meeting?

- UI features are majority done switch focus to helping Tim clean up the backend for final sprint
