

CS 346: Daily Standup

Team #: 214

Date: March 17th

Questions

Enter comments below. If a team member is absent, fill in their name, and put a line through the answer section.

Name	What have you completed since last meeting?	What are you going to complete today?	What obstacles are in your way?
Yang	Worked on revamping home page to display a list of created notes, along with editing, updating title/group and deleting	Pair programming with hummad and Yang to finish UI requirements of sort/search/group	Figuring out how to keep track of first state in search
Hummad	↓ Done via Pair program		
John	Able to save body data and display it text on home page, can also save body data to JSON	convert the html string to normal string for displaying on homepage	Figuring out how to convert span text to string
Tim	created JSON file to save UI state including window size/window position on close, will continue to help with sewing notes data	will work on creating database to counter filepaths of local JSON files	N/A

Outstanding

Do we need help with anything? Not currently

Decisions

Is there anything else we should capture from this meeting?
